## INSTRUCTIONS FOR EOY FEDERAL REPORT TABLE 2

### PERSONNEL (In Full -Time Equivalency of Assignment) EMPLOYED TO PROVIDE SPECIAL EDUCATION AND RELATED SERVICES FOR CHILDREN WITH DISABILITIES

#### General Instructions

Provide the number of full-time equivalent personnel *employed* and *contracted* to provide special education and related services on December 1, 2011 (child count date). The figures must include data from all agencies having responsibility for educating children with disabilities, including personnel employed by private agencies. Report personnel employed to serve students with disabilities ages 3-21 regardless of funding source (i.e., Part B of IDEA, State, or local). Do not count teachers and other instructional personnel who serve children from birth through age 2, unless they also serve children with disabilities ages 3 through 21.

The number of personnel should be reported in full-time equivalency of assignment. That is, a part-time teacher working 4 hours per day (in a 6-hour school day) would be reported as .67 FTE. Decimals may be used. Place zeros (0) in categories where no personnel are employed.

**Section A is for reporting the number of FTE Special Education teachers contracted or employed to work with children who are receiving special education, according to whether or not the teachers are *highly qualified* for the capacity in which they serve. On the upper row, report teachers working with 3 through 5 year old children with disabilities; on the lower row, report teachers working with children ages 6 through 21.**

Special education teachers include teachers employed to provide special education to children with disabilities, including preschool teachers, itinerant/consulting teachers, and home/hospital teachers. This count should include teachers of children with disabilities in separate schools and facilities.

NOTE: For reporting Special Education teachers whose service time is divided between students with disabilities and students in the general population, base the reported FTE on only the percentage of time the Special Education teacher works specifically with students receiving special education and related services.

**Section B is for reporting the number of FTE Special Education paraprofessionals contracted or employed to work with children who are receiving special education, according to whether or not the teachers are qualified for the position held. On the upper row, report paraprofessionals who work with 3 through 5 year old children with disabilities; on the lower row, report paraprofessionals who work with children ages 6 through 21.**

Paraprofessionals are employees who provide instructional support, including those who:

(1) provide one-on-one tutoring if such tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher, (2) assist with classroom management, such as organizing instructional and other materials, (3) provide instructional assistance in a computer laboratory, (4) conduct parental involvement activities, (5) provide support in a library or media center,

(6) act as a translator, or (7) provide instructional support services under the direct supervision of a teacher.<sup>1</sup>

NOTE: For reporting paraprofessionals whose service time is divided between students with disabilities and students in the general population, base the reported FTE on only the percentage of time the paraprofessional works specifically with students receiving special education and related services.

**Section C** is for reporting the number of FTE related services personnel, by type of personnel contracted and employed to provide related services for children with disabilities ages 3-21, according to whether or not they are fully certified for the position held. *Note that the number of speech-language pathologists employed has been included in this section.*

### **Specific Instructions, Section A**

Column (1) For teachers employed or contracted to provide special education and related services on or about the child count date, report the number of FTE teachers who meet the State standard of *highly qualified*\* for the position.

Note that the statutes provide for separate criteria for classifying Special Education teachers as *highly qualified* when they do not have responsibility for teaching core academic subjects.

If teachers who work with children ages 3 through 5 are not included in the State's definition of *highly qualified*, report these personnel as highly qualified if they meet the definition of fully certified provided in the instructions for Section C.

Column (2) For teachers employed or contracted to provide special education and related services on or about the child count date for 2011, report the number of FTE teachers who do **NOT** meet the State standard for highly qualified for the position in which they are employed.

### **Specific Instructions, Section B**

TABLE 4 - RE7 (for reporting race/ethnicity according to New 10/2007 Guidance)

REPORT OF CHILDREN WITH DISABILITIES EXITING  
SPECIAL EDUCATION

JULY 1, **2011** – JUNE 30, **2012**

General Instructions

Provide a count of the number of children with disabilities reported under IDEA, Part B who exited special education between July 1, **2011** and June 30, **2012**. Data are to be provided by age, disability category, basis of exit, race/ethnicity, gender, and limited English proficiency (LEP) status. Include only children who were in special education at the start of the reporting period, but were not in special education at the end of the reporting period. All data provided must sum, as an unduplicated count, to Section B of the table where you report the total for all disabilities. The age of the student should reflect his/her age in years on the date of the most recent child count prior to the child's exiting, not at time of exit.

In providing data for this collection, the school district is to submit complete and unsuppressed data.

SCHOOL DISTRICTS SHOULD NOT PROVIDE PERCENTAGES IN SECTIONS A THROUGH E, AS THEY WILL BE CALCULATED AFTER THE COUNTS ARE SUBMITTED.

Specific Instructions

Sections A-E

In these tables, enter an unduplicated count of all children with disabilities, by age, disability category, race/ethnicity, gender, and limited English proficiency (LEP) status, who were in special education at the start of the reporting period, but were not in special education at the end of the reporting period. School districts must use a 12-month interval for reporting exiting data, from July 1, **2011** to June 30, **2012**. Place zeros (0) in categories where no children have exited the program.

Row A. Transferred to regular education. Total who were served in special education at the start of the reporting period, but at some point during that 12-month period, returned to regular education. These are students who no longer have an IEP and are receiving all of their educational services from a regular education program. If the parent of a child with a disability revokes consent for special education and related services under 34 CFR §300.300(b)(4), the child would be reported in this category.

Row B. **Graduated with regular high school diploma. Total who exited an educational program through receipt of a high school diploma identical to that for which**

**students without disabilities are eligible. These are students who met the same standards for graduation as those for students without disabilities. As defined in 34 CFR §300.102(a)(3)(iv), “the term *regular high school diploma* does not include an alternative degree that is not fully aligned with the State’s academic standards, such as a certificate or a general educational development credential (GED).”**

- Row C. Received a certificate. Total who exited an educational program and received a certificate of completion, modified diploma, or some similar document. This includes students who received a high school diploma, but did not meet the same standards for graduation as those for students without disabilities. This category also includes students receiving any alternative degree that is not fully aligned with the State’s academic standards, such as a certificate or a general educational development credential (GED), so long as the student remained continuously enrolled in the secondary educational program. If your State does not use certificates, enter -9 in the appropriate cells.
- Row D. Reached maximum age. Total who exited special education because of reaching the maximum age for receipt of special education services, including students with disabilities who reached the maximum age and did not receive a diploma.
- Row E. Died. Total who died.
- Row F. Moved, known to be continuing. Total who moved out of the catchment area or otherwise transferred to another district and are *KNOWN* to be continuing in an educational program. There need not be evidence that the student is continuing in special education, only that he/she is continuing in an education program. This row includes students in residential drug/alcohol rehabilitation centers, correctional facilities, or charter schools if those facilities operate as separate districts, excluding normal matriculation.
- Row G. Dropped out. Total who were enrolled at the start of the reporting period, were not enrolled at the end of the reporting period, and did not exit special education through any of the other bases described. This row includes dropouts, runaways, GED recipients (in cases where students are required to drop out of the secondary educational program in order to pursue the GED certificate),<sup>5</sup> expulsions, status unknown, students who moved and are not known to be continuing in another educational program, and other exiters from special education.
- Row H. Total of rows (A) through (G).

#### Section A. Disability and Discrete Age by Basis of Exit

---

<sup>5</sup> In States where students may receive a GED without dropping out of school, these students may be reported as receiving a certificate (Row C). These are students who were jointly enrolled in secondary education and a GED program. In all other cases, GED recipients should be reported in Row G.

Report the number of students ages 14-21 who exited special education by age-year, disability category, and basis of exit.

#### Section B. Discrete Age by Basis of Exit

Report the total number of students ages 14-21 who exited special education by age-year and basis of exit. These figures must equal the sum of the data reported in Section A.

#### Section C. Race/ethnicity by Basis of Exit

In October 2007, the Department of Education published its Final Guidance on Maintaining, Collecting and Reporting Racial and Ethnic Data to the U.S. Department of Education in the Federal Register (Vol. 72, No. 202, available at <http://www.gpoaccess.gov/nara/index.html> ), referred to in these instructions as the *new guidance*. The procedures for collecting, aggregating, and reporting race and ethnicity, as described in the *new guidance*, must be implemented by no later than the report of the SY 2010-11 Exiting data. When implementing the *new guidance*, States must do so at the beginning of the relevant reporting period and must apply the *new guidance* consistently to ALL data reported within that period.

School districts should report all children with disabilities according to the seven categories listed below. The following definitions of the seven categories for aggregate report of race/ethnicity have been adapted from definitions appearing in the *new guidance*.

Report the total number of students ages 14-21 who exited special education by race/ethnicity and basis of exit. These figures must equal the total data for ages 14-21 reported in Section B.

Hispanic/Latino	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. Refers to Hispanic and/or Latino.
American Indian or Alaska Native	A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment. ( <i>Does not include persons of Hispanic/Latino ethnicity.</i> )
Asian	A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent. This includes, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam. ( <i>Does not include persons of Hispanic/Latino ethnicity.</i> )
Black or African American	A person having origins in any of the Black racial groups of Africa. ( <i>Does not include persons of Hispanic/Latino ethnicity.</i> )
Native Hawaiian or Other Pacific Islander	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or the Pacific Islands. ( <i>Does not include persons of Hispanic/Latino ethnicity.</i> )
White	A person having origins in any of the original peoples of Europe, the Middle East, or North Africa. ( <i>Does not include persons of Hispanic/Latino ethnicity.</i> )
Two or more races	A person having origins in <u>two or more</u> of the five <u>race</u> categories listed immediately above. ( <i>Does not include persons of Hispanic/Latino ethnicity.</i> )
Total	The unduplicated total across the seven (7) race/ethnicity designations.

Note that each child should be reported in only one of the race/ethnicity categories, above.

#### Section D. Gender by Basis of Exit

Report the total number of students ages 14-21 who exited special education by gender and basis of exit. These figures must equal the total data reported in Section B.

#### Section E. Limited English Proficiency Status by Basis of Exit

Report the total number of students ages 14-21 who exited special education by LEP status. These figures must equal the total data reported in Section B.

**Limited English Proficient.** A child who meets the definition of a limited English proficient child under the Elementary and Secondary Education Act, 20 U.S.C. § 7801(A)(25):

“The term ‘limited English proficient,’ when used with respect to an individual, means an individual -

(A) who is aged 3 through 21;

(B) who is enrolled or preparing to enroll in an elementary school or secondary school;

- (C)
  - (i) who was not born in the United States or whose native language is a language other than English;
  - (ii)
    - (I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and
    - (II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or
  - (iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- (D) whose difficulties in speaking, reading, writing, or understanding the English language may be sufficient to deny the individual -
  - (i) the ability to meet the State's proficient level of achievement on State assessments described in section 6311(b)(3) of this title;
  - (ii) the ability to successfully achieve in classrooms where the language of instruction is English; or
  - (iii) the opportunity to participate fully in society.”

LEP status should reflect the child’s status as of the date of exit.
